Movex[®]
PRODUCT OVERVIEW

Movex[®]

Global Thinking, Local acting.

Your business is stepping into the future.

Movex designs and manufactures high-quality components for the food, beverage, packaging, automotive and automation industries.

Movex meets your needs for standard and custom products in a dynamic and responsive manner providing the best design and after-sale support.

Innovation and service level are the goals of a qualified engineering and sales team with the objective of presenting Movex as a supplier-of-excellence to all clients.

Through a distribution-network which spans the globe, Movex offers constant evolution in design, performance & service.

Movex Curves

Movex Curves are designed to offer better conveyor performance. Suitable for steel and plastic chains, our curves are produced with computer controlled machines with a smooth chain guide surface.

Available in different materials and designs:

- Standard UHMW-PE (standard applications)
- BluLub (limited or no lubrications)
- RS (high performance)

Movex Curves produced in RS and BluLub materials need less energy and with a lower coefficient of friction, improve product stability and chain wear-life.

These curves are perfectly interchangeable with the standard design.

RS | BluLub®

PROFILES UHMW-PE and **BluLub®**
